

## GIS Technician / Cartographer

Precision GeoSurveys is an industry leader of airborne geophysical solutions in western North America and worldwide. Our core business lies in low-level, high-resolution helicopter surveys in mountainous terrain where modern exploration demands exceed the capability of historical airborne systems.

Due to expanding business activities, Precision GeoSurveys is seeking a highly motivated *GIS Technician / Cartographer* to join our team in Langley, British Columbia.

### Responsibilities

- Prepare maps and figures for scientific reports.
- Manage and work with a variety of digital and geospatial data.
- Convert data and maps into GIS databases with proper and accurate spatial location.
- Assist with scientific report writing.
- Support efficient data integration workflows to ensure seamless transfer of validated data between key stakeholders.
- Perform complex work with minimum supervision.
- Give continuing and meticulous attention to detail.
- Additional tasks as may be assigned from time to time.

### Qualifications

- Fluency in the English language – spoken and written.
- Diploma or degree in GIS, cartography, or geomatics. Equivalent experience would be considered.
- Knowledge of electronics or mineral exploration would be an asset.
- Must be social and have an aptitude for developing peer and client relationship.

### What we offer

This is an excellent opportunity to apply your GIS skills in an exciting and adventurous industry. We offer competitive wages, paid vacations, comprehensive benefits plans, hybrid work options, and frequent helicopter tours over the beautiful Coast Mountains of BC. Qualified candidates are encouraged to send their resume and cover letter to [careers@precisiongeosurveys.com](mailto:careers@precisiongeosurveys.com)
